Effects of smoking on functional and sensory properties of egg yolk. We have investigated the effects of smoking on the physical, chemical, and sensory properties of egg yolk. Smoked egg yolk in general showed higher protein content and lower mineral and phosphorus contents than did non-smoked egg yolk. The smoked egg yolk had higher viscosity, lower paste and browning values, and lower moisture content than did non-smoked egg yolk. The smoked egg yolk had lower levels of free fatty acids and peroxide values but higher levels of conjugated fatty acids and thiobarbituric acid values than did the non-smoked egg yolk. The smoked egg yolk was less prone to undergo discoloration under refrigeration for a period of 2 h, but less stable than the non-smoked egg yolk against thermal and peroxide stress. Smoking considerably improved the texture and sensory properties of egg yolk. When smoked egg yolk was heated at 70 degrees C for 20 s, the oiliness and fullness perceived by the panelists were no longer detected, and the sensory scores were significantly lower than the non-smoked egg yolk. In the presence of coffee, the smoked egg yolk was less prone to undergo discoloration under refrigeration, but it retained the lowered sensory scores against cold stress. Smoked egg yolk can be used as a milk substitute, in the preparation of beverages, and for infant food.This is one of the most popular offerings of the day. The "tastes better than it sounds" venison sausage from Kunz Family Meats.The meat is lean with very little fat. This makes it a great protein and flavor combination. We've been preparing this for some time with our Taste of the Trail venison sausage. The sausage is almost as tasty as deer steak. It makes a great an every day breakfast, lunch or dinner. Posted in Recipes | Comments Off on Taste of the Trail Get ready for an awesome installment of the Taste of the Trail! As part of our process, we've been making a variety of recipes from trail food vendors. First up is "Chef Charles" of the Red Door at the Gros Ventre Lodge. Charles is actually a great chef, but we thought this would be a fun opportunity to learn a little more about him. So what better way to start than the trailer of the day: Casanova's BBQ
