Wondershare Recoverit  
9.3.4.5 Multilingual  
Portable Cracked..Q: How  
to add an image to the top  
right corner of the page?  
Below is an example of  
what I want to have in my

---

side navigation. I want to have one page that does not have any text and two images at the top right corner. I will later add the navigation bar myself. A:

Start by creating the HTML for each button: Then add a similar CSS rule for each button and use the z-index property to determine which one is on top:

```
top: .corner { margin: 0
```

---

auto; width: 50px; height: 50px; position: relative; z-index: 1; } .corner a { display: block; width: 50px; height: 50px; } If you're using a inline style sheet the margin: 0 auto; is superfluous. If you're using a separate CSS style sheet then it is necessary to set the width and height to the same value otherwise the absolute positioning will be

---

based on the width and height of its containing element, which isn't what you want. /\* \* Use of this source code is governed by the MIT license that can be \* found 3e33713323
