What's New in the AutoCAD?

Windows 10: The AutoCAD 2023 application supports the latest Windows 10 version. A technical preview of AutoCAD can now be used on the Windows 10 operating system and delivers support for Windows 10 users and the Autodesk May update. You can download and install the Autodesk May update from the Windows 10 Store for free. The navigation elements on the ribbon are now fully customizable. You can now change the ribbon size, color, and orientation (upright or landscape). Export to DWGx: You can now export to DWGx, an industry standard format that is compatible with AutoCAD LT, and is no longer proprietary to AutoCAD. Stand-Alone Install: With stand-alone install, you can choose a home folder for the application. The files are installed on the computer and you do not need to move the application folder to a different location. BIRMINGHAM, Ala. – May 22, 2017 – Autodesk, Inc. (NASDAQ: ADSK) today announced the availability of AutoCAD 2023, the latest release of AutoCAD, with new features and enhancements to improve user productivity and improve workflow. The release is available now for Windows, Mac, and Linux operating systems. In addition, Autodesk preview customers who are currently testing AutoCAD 2023 are invited to participate in an AutoCAD 2023 Technical Preview study, with early access to the new features and functionality expected this summer. "There is a new wave of innovation in AutoCAD and we are excited to provide exciting new features and user experiences to our customers," said Tim Wade, senior vice president, business development and sales, Autodesk. "These new enhancements will enable AutoCAD users to be more productive and improve their workflow." In addition to the new features, AutoCAD 2023 also includes many enhancements to the user interface, such as the ribbon, menu system, and graphics. An industry-wide feature of this release is the integration of the Windows 10 May update into AutoCAD. This means that the Autodesk May update is automatically installed, and you don't need to do anything to get it. The Windows 10 May update provides many new features, such as the ability to take advantage of multiple monitors, full screen editing, touchscreen capabilities, and many other enhancements. For customers testing the AutoCAD 2023
